## CURRICULUM VITÆ

+919434717424

[ddas.iitkgp@gmail.com](mailto:ddas.iitkgp@gmail.com)

Website: [www.bioh2iitkgp.in](http://www.bioh2iitkgp.in)  
(h-index: 56, i-10 index: 146)

### — Personal Data

Date of Birth: 22<sup>nd</sup> November 1953  
Gender: Male  
Citizenship: Indian  
Civil Status: Married

### — Education

- 1985      **Ph.D.**  
**Subject:** Biochemical Engineering.  
Institute: Indian Institute of Technology Delhi, New Delhi, India.  
Thesis advisor: Prof. T. K. Ghose and Prof. K. S. Gopalakrishnan  
Thesis: Optimization of methane production from agricultural residues
- 1977      **Bachelor of Technology (B.Tech.)**  
Subjects: Food Technology & Biochemical Engineering  
Jadavpur University, Kolkata, India
- 1973      **Bachelor of Science (B.Sc. (Hon))**  
Subject: Chemistry (Hon), Physics, Mathematics  
Burdwan University, Burdwan, India

### — Present activities

**Scientific Advisor**, Dhampur Sugar Mills Ltd., New Delhi from 1st February, 2021.

**Professor (INAE-AICTE Distinguished Visiting Professor)** in SRM Institute of Science and Technology, Chennai and Heritage Institute of Technology, Kolkata.

### — Teaching Experience

- 2018-2020      **Visiting Professor**  
Biotechnology Department, I.I.T., Kharagpur and  
P K Sinha Center for Bioenergy and Renewables
- 2003-2018      **Professor**  
Biotechnology Department, I.I.T., Kharagpur
- 2012-2018      **Associate Faculty**  
P K Sinha Center for Bioenergy & Renewables, I.I.T., Kharagpur
- 1997-2003      **Associate Professor**, Biotechnology Department, I.I.T., Kharagpur
- 1990-1997      **Assistant Professor**, Department of Chemical Engineering, IIT, Kharagpur
- 1988-1990      **Lecturer**, Department of Chemical Engineering, IIT, Kharagpur

## —NPTEL Web based courses taught (Undergraduate/Postgraduate level)

2017 (12 weeks) **Industrial Biotechnology**

2018 (12 weeks) **Aspects of Biochemical Engineering**

2018 (12 weeks) **Industrial Biotechnology**

2019 (12 weeks) **Industrial Biotechnology**

2020 (12 weeks) **Industrial Biotechnology**

2021 (12 weeks) **Aspects of Biochemical Engineering** (AICTE approved FDP course)

2021 (12 weeks) **Industrial Biotechnology**

## — GIAN Web based courses taught

2016 (15 hrs.) **Biotechnology and process engineering for biofuels production**  
National Institute of Technology Jalandhar, India

## — Professional Experience

2014-2017 **Professor-in-Charge**, P K Sinha Center for Bioenergy, I.I.T., Kharagpur

2012-2015 **Renewable Energy Chair Professor**, I.I.T., Kharagpur,

2000-2003 **Head**, Biotechnology Department, I.I.T., Kharagpur,

1985-1986 **Biochemical Engineer**, M/s Citurgia Biochemicals Ltd., Surat

1986-1987 **Post Doctoral Fellow**, University of Utah, USA

## — Courses Taught

<b>Undergraduate</b>	Biochemical Reaction Engineering, Bioreactor analysis & Design, Bioprocess Technology Biotechnology in Pollution Abatement Immobilization Technology
<b>Graduate classes</b>	Aspects of Biochemical Engineering Bioprocess Plant & Equipment Design Energy Systems Modelling
<b>Laboratory classes</b>	Biochemical Engineering Energy Engineering

## — Award

2013 **BRSI Malaviya Memorial award (for senior faculty)**  
For the outstanding contribution in hydrogen energy

2008 **IAHE Akira Mitsui Award**  
For the important contribution to hydrogen research

2000 **DBT's Biotechnology Overseas Associateship**  
University of Miami, Miami, USA

### — Honour

2004 **Fellow, West Bengal Academy of Science and Technology (WAST)**  
2011 **Fellow, Biotechnology Research Society of India (BRSI)**  
2012 **Fellow, Institute of Engineers (India) (IE)**  
2015 **Fellow, Indian National Academy of Engineers (INAE)**  
2016 **Fellow, International Association of Hydrogen Energy (IAHE)**

2002 **Best paper** award in Biotechnology Session of CHEMCON  
2019 **Felicited by Biological Engineering Society (BES) at IIT Madras for the long-standing contribution in the area of Biological Engineering**

2019 **Top 2% Scientists** in the world based on single year (2019) analysis as per Stanford University research (Rank based on composite score (Excluding self-citations): 16837)

### — Technology Transferred

**Technology Licence Agreement** was signed between Indian Institute of Technology Kharagpur and **M/s. Dhampur Sugar Mills Ltd, Dhampur, UP**, India on our process titled “Biohydrogen production from the cane molasses based distillery effluent” on 3rd May, 2019

Project Monitoring Committees in Hydrogen Energy and Fuel Cells

### — Expert members of the committees

- MNRE Project Monitoring Committees in “Hydrogen Energy and Fuel Cells”
- Faculty selection committee of IIT Delhi, NIT Rourkela, NIT Durgapur, NIT Raipur, Jadavpur University, Calcutta University, etc.
- DBT Steering Expert Committee on Indo Brazil Bilateral Collaboration
- Expert Panel Member for Screening of the Proposals received against the DST call on National Innovation Challenge Award (NICA)
- INAE Sectional Committees-IX (Energy Engineering) for shortlisting of the nominations for Election of Fellows and Foreign Fellows
- Examiner of Ph.D. thesis submitted in UiT – The Arctic University of Norway, University of Malaya, IIT Bombay, IIT Madras, IIT Guwahati, IIT-BHU Varanasi, IIT Roorkee, IIT Delhi, NIT Rourkela, NIT Durgapur, NIT Raipur, Jadavpur University, Calcutta University, Allahabad University, Anna University, etc.

## — Member of the Editorial Board of International Journal

- *International Journal of Hydrogen Energy*
- *Indian Journal of Biotechnology*
- *Biotechnology for Biofuels*
- *The Open Microalgae Biotechnology Journal*
- *INAE Letters*

## — Ph.D. Thesis Supervised

1997	Kakali Badyopadhyay	Microbial degradation of phenolic waste
2001	Narendra Kumar	Hydrogen production by <i>Enterobacter cloacae</i> IIT-BT08
2003	David K. Daniel	Studies on glucoamylase fermentation by <i>Aspergillus awamori</i> NRRL 3112
2004	Jayshree Mishra	Molecular characterization of gene encoding for hydrogenase from <i>Enterobacter cloacae</i> IIT-BT 08
2005	Kaustubha Mohanty	Development of a multi-stage external loop airlift reactor for wastewater treatment
2005	Kaushik Nath*	Studies on Biological Hydrogen Production by Two-stage Fermentation Process
2006	Devrani Mitra	Structural Characterization of Mammalian Cell Entry Proteins and Peptidyl-Prolyl Cis-Trans Isomerase A of <i>Mycobacterium tuberculosis</i>
2008	Shireen Meher Kotay	Microbial production of hydrogen from sewage sludge
2012	Tumpa Dutta	Purification and characterization of Fe-hydrogenase obtained from <i>E. cloacae</i> IIT-BT08
2012	Mohan Yama	Clean Energy Generation using Microbial Fuel Cells
2014	Namita Khanna	Strain development and determination of suitable process parameters for maximization of hydrogen production using <i>Enterobacter cloacae</i> IIT-BT 08
	Kanhaiya Kumar	CO <sub>2</sub> sequestration, hydrogen production and secondary metabolites extraction using <i>Chlorella sorokiniana</i>
	J. Jose Gilbert	Hydrogen production in photobioreactor using spent medium of Dark fermentation process
2015	Soumya Pandit	Improvement on the performance of microbial fuel cell by optimizing operational parameters
	Nitai Basak	Studies on photo fermentative biohydrogen production by Purple-non-sulfur bacteria
2016	Shantonu Roy	Biohydrogen production from organic residues by thermophiles
2017	Supratim Ghosh	Improvement of algal biomass production for the enhancement of biodiesel yield from <i>Chlorella</i> sp. MJ 11/11
	Bikram K. Nayak	Carbon dioxide sequestration and clean energy generation using <i>Anabaena</i> sp. PCC 7120
	Preeti Mishra	Improvement of the gaseous energy recovery by biohythane process using organic wastes
2018	Sinu Kumari	Improvement of gaseous energy recovery from lignocellulosic wastes
2019	G. Balachandar	Biohydrogen production from organic wastes and residues by dark

		Fermentation
<b>2020</b>	<b>Jhansi L. Varanasi</b>	Development and application of bioelectrochemical systems for enhanced energy recovery from organic wastes
	<b>Ramya Veerubhotla</b>	Development of Portable Microscale Power Generation Devices using Electrogenic Bacteria
	<b>Srijoni Banerjee</b>	Development of suitable process parameters for enhanced biodiesel production from <i>Neochloris oleoabundans</i> UTEX 1185
	<b>Harshita Singh</b>	Biohydrogen production from microalgal biomass in a biorefinery approach
	<b>Vaishali Singh</b>	Fermentative hydrogen and n-butanol production by <i>Clostridium saccharoperbutylacetonicum</i> DSM 14923

\* Received 'Innovative Student Projects Award 2007' of Indian National Academy of Engineering (INAE)

#### — Patent awarded

Indian Patent No. 188562	A Continuous process for the production of ethanol from starchy materials
India Patent No. 212605	A process for biological production of hydrogen
India Patent No. 355538	Development of cost effective membrane cathode assembly for a single chambered microbial fuel cell

#### Patent filed

- Earthen material based cathode separator assembly for scalable bioelectrochemical system (Patent Application No.805/KOL/2013).
- A system for simultaneous treatment of wastewater and waste gas using a microbial carbon capture cell reactor (Patent Application No. 0471/KOL/2015)
- Development of a novel microbial fuel cell (Application no. 21435)
- Novel approach of biodiesel extraction process from wet microalgal biomass by using Hibiscus rosa-sinensis leaf extracted Fe<sub>2</sub>O<sub>3</sub> nanocatalyst (Application no. 21597)

#### — Design, commissioning of Pilot plants

- 800 L and 10,000 L Biohydrogen pilot plant at Indian Institute of Technology, Kharagpur
- 500 L and 2,000 L Biomethanation Pilot Plant at Indian Institute of Technology, Delhi
- 5,000 L Biomethanation Pilot Plant at Dourala Sugar Works; Meerat
- 3,000 L Biomethanation Pilot Plant at Citurgia Biochemicals Ltd. (CBL), Surat

### **— Short Term Courses and Seminar cum Workshop coordinated**

May 10-24, 1989	Analysis and Design of Novel Bioreactor
June 25 – July 7, 1990	Biotechnology in Combating Pollution
June 11-24, 1992	Application of Immobilization Techniques in Biotechnology
July 14-30, 1999	Bioprocess Engineering with Genetically Modified Organisms

### **— National / International Symposium / Workshop organized**

December 11-15, 1995	National Seminar on “Advances in Environmental Pollution Monitoring and Control”
January 15-16, 2003	Indo-Norwegian Seminar on ‘Recent trends in Tuberculosis research’
February 10-11, 2005	International Conference on ‘Functional Genomics for Novel Vaccine and Drug Design on Tuberculosis Infection’
February 7-9, 2008	International Workshop on ‘Biohydrogen Production Technology’
October 17-18, 2011	International Workshop on “Use of solar energy for CO <sub>2</sub> capture, algae technology, and hydrogen production, and subsequent use of algal biomass for commercial purpose”
December 14-15, 2012	International Conference on “Advances in Biological Hydrogen Production Processes and Applications”
January 10-13, 2013	International Conference on “Algal Biorefineries”
	3rd International Conference on “New and Renewable Energy Resources for Sustainable Future” (ICONRER-2021)

### **— Selected Plenary / Eminent / Invited Lectures Delivered in the last 6 years**

15 November, 2021	XV National Agricultural Congress, BHU, Varanasi	Hydrogen from Biomass through Thermal and Microbial Routes
10-12 November & 19-21 November, 2021	Series of invited online lectures at Heritage Institute of Technology, Kolkata	Next Generation Fuels
23 September,		Biohythane: Fuel for the future

2021	Key note lecture in the International Conference on “Advanced Biology and Social Implications” of Swami Vivekananda University, Kolkata	
13-15 September, & 20-22 September, 2021	Series of invited online lectures at SRM Institute of Science and Technology, Chennai	Fundamental and Technology Advances on Biohydrogen Production Processes
22 March, 2021	Invited lecture in ONGC Webinar ‘Role of Hydrogen in Energy Regime and preparedness of India’	Biohythane: Fuel for the future
11 February, 2021	Expert talk in 3rd International Conference on “New and Renewable Energy Resources for Sustainable Future” (ICONRER-2021), SKIT, Jaipur and Assiut University (Egypt)	Biohythane from renewable organic wastes: Fuel for the future
11 January, 2021	Chief Guest at the Inaugural session and delivered invited lecture in Webinar on ATAL Faculty Development Programme on “Green Technology and Sustainability Engineering” at MNNIT, Allahabad	Biohydrogen production: A holistic approach from lab scale to pilot-scale
16 December, 2020	Webinar on opportunities & challenges for production and utilisation of hydrogen in India, NISE, New Delhi	Biohydrogen production from organic wastes: The path towards a sustainable future
20 September, 2020	Webinar on “Waste to Energy”, Centre for Environment, Institute of Science & Technology, JNTUH, Hyderabad	Biological hydrogen production via Dark fermentation: A holistic approach from Lab-scale to Pilot-scale
29 August, 2020	National Webinar on Research insights into biotechnology and Drug discovery, Osmania University	Biofuels production using renewable energy sources: The path towards a sustainable future
4 July, 2020	e-Faculty Development Program cum Workshop on Waste to Bioenergy, Organized by Sharda University, and Maharashtra Institute of Technology	Biofuels production using renewable energy sources: The path towards a sustainable future
7 June, 2020	Online summer internship programme (OSIP-2020) organized by IICHe	Biofuels production from renewable energy sources; Zero-carbon gaseous fuel production processes by mesophiles
26-27 February, 2020	SPARC Indo-Belgium Workshop, IIT Kharagpur	Development of Portable Power Generation Devices using Electrogenic Bacteria Biohythane: Fuel for the Future

21-23 February, 2020	Biosangam 2020, MNNIT Allahabad	Biohythane: An integrated approach for maximum gaseous energy recovery from organic wastes
2-3 January, 2020	Indo-U.S. Interdisciplinary Workshop at IIT Kharagpur on 'Sustainable Biorefinery for Waste Valorization'	Biohydrogen production from organic wastes
25-30 November, 2019	AICTE-QIP course at IIT Kharagpur on "Waste to Wealth - the Paradigm, Practice and Potential"	Commercialization of biohydrogen production process from distillery effluent
14-16 November, 2019	International Conference on "Application of Biotechnology in Industry and Society" (ABIS 2019), NIT Jalandhar	Improvement of gaseous energy generation from organic wastes by Biohythane process
18-19 October, 2019	Biological Engineering Society (BESCON-2019, IIT Madras	Biochemical Based Biomass to Hydrogen Generation
17 October, 2019	DBT National Workshop on Bioenergy, IIT Kharagpur, Kolkata	Biochemical Based Biomass to Hydrogen Generation
19-20 September, 2019	National Workshop on Hydrogen Generation Technologies, IISc, Bangalore	Biohythane: An integrated approach for maximization of gaseous energy recovery from organic wastes
5-6 September, 2019	Indo-US joint workshop ;Recent Advances in Advanced Biofuel Technologies; 'Biohydrogen, Fuel Cell & Biobutanol, TERI, New Delhi	Biohythane - A future fuel
23 October, 2018	2 <sup>nd</sup> Bharatna Dr. A.P.J. Abdul Kalam Memorial Lecture, IChE, IIT Kharagpur	Biological hydrogen production via Dark fermentation: A holistic approach from Lab-scale to Pilot-scale
17-23 June, 2018	World Hydrogen Energy Convention (WHEC 2018), Rio de Janeiro, Brazil	Performance of different integrated bioenergy systems to maximize energy recovery from water hyacinth Series of lectures
12 April, 2018	National Seminar NIT Agartala	Improvement of gaseous energy recovery from lignocellulosic materials by biohythane process
25-31 March, 2018	Tsinghua University, Beijing, China	Algal Biorefineries and its Potentiality
30 March, 2017	International Conference on Trends and Advanced Research in. Green Energy Technologies, ICTARGET-2017	Improvement of energy recovery from organic wastes by the
March 17-18, 2017	National Workshop on Algal Technology and its Applications, NIT Calicut, India	
13-17 June, 2016	World Hydrogen Energy Convention (WHEC 2016), Zaragoza, Spain	

17-19 Nov, 2016	International Conference on 21 <sup>st</sup> Century Energy Needs-Materials, System & Applications (ICTFCEN-2016), IIT Kharagpur	biohydrogen followed by biobutanol fermentation using obligate anaerobes Hydrogen an Emerging Fuel of 21 <sup>st</sup> Century
4 April, 2015	UPES, Dehradun, India	Recent development of Biohydrogen production from organic wastes
15 June, 2015	Denmark Technical University, Denmark	High rate algal biomass production for food, feed, biochemicals and biofuels
13 April, 2015	TBES-2015, NIT Durgapur, India	Biohydrogen production processes from organic wastes: Present state of art
6 October, 2015	National Seminar on "Renewable Energy Senerio in India", IICB, Kolkata	Potentiality gaseous energy recovery from organic wastes by HYMET <sup>®</sup> process in India
11 December, 2015	Annual Convention, IN0AE, Pune, India	Biohythane process for the maximization of the gaseous energy recovery from organic wastes
30 August, 2014	Alto University, Finland	Integration of acidogenesis and solventogenesis for maximum energy recovery
28 August, 2014	2 <sup>nd</sup> International Conference on Algal Biorefinery (ICAB-2014), Denmark	Carbon dioxide sequestration, hydrogen production and secondary metabolites extraction using <i>Chlorella sorokiniana</i>
13 June, 2014	2 <sup>nd</sup> International Conference on Sustainable Solid Waste Management, Athens	Recent advances of the biohydrogen production processes
8-12 June 2014	International Conference on Clean Energy (ICCE-2014), Istanbul, Turkey	Biohydrogen Production: An Approach towards the Commercialization
13 November, 2014	National Institute of Advanced Studies, Bangalore	Organic wastes in India's energy supply

### — Sponsored Research Projects

MNRE	1992-1994	Two-stage biomethanation of MSW to improve bioleachate production and biogas generation
	2005-2008	Scale-up studies on production of hydrogen from <i>Enterobacter cloacae</i> IIT-BT 08
	2010-2016	Mission Mode Project on Hydrogen Production through Biological Routes
	2016-2019	Maximization of Gaseous Energy Recovery from Organic Wastes through Biohythane Process
DBT	1999-2001	Production of hydrogen as a cleaner fuel through waste recycling
	2001-2004	Improvement of hydrogen production by over expression of the

		hydrogenase producing gene of high yielding strain of <i>Enterobacter cloacae</i> IIT-BT 08 in fast growing <i>Escherichia coli</i>
2004-2007		Improvement of hydrogen production from industrial wastes using hybrid Bioreactor
2006-2009		Amelioration of hydrogen production from sewage sludge using <i>Enterobacter cloacae</i> IIT-BT 08
2010-2014*		Maximization of Gaseous Energy Recovery by Simultaneous Biohydrogen Production and Biomethanation
2014-2020		High rate Algal biomass Production for food, feed, biochemicals and biofuels
		Maximization of zero carbon fuel generation from algal biomass
		Optimal design and scale-up photobioreactor for high density algal cell Production
		Development of suitable microalgae harvesting technology
DST-NSF*	2003-2007	Biohydrogen production by investigation on the hydrogenase coding gene of high yielding strain of <i>Enterobacter cloacae</i> IIT-BT 08 in fast growing <i>E. coli</i>
DST-DAAD*	2004-2007	Studies on the Fe-hydrogenase genes of prokaryotes and eukaryotes for the improvement of hydrogen production
MHRD	2005-2007	Scale-up studies on the production of therapeutically important protein (FGF 8) by recombinant <i>E. coli</i>
	2017-2020	Mass Cultivation of Microalgae for the Production of High Value Bio-Fuel Fractions through Hydro-Thermal Liquefaction
Norwegian Ministry of Foreign Affairs*	2008-2011	BioCO <sub>2</sub> : An integrated multidisciplinary project using solar energy for production of renewable hydrogen combined with CO <sub>2</sub> capture, to address global warming and energy production
DRDO	2008-2011	Continuous hydrogen production in a photo bioreactor using spent medium of dark fermentation process
	2012-2014	Integrating large scale biohydrogen production and hydrogen fuel cell for sustainable power generation
	2013-2017	Improvement of energy recovery from waste water by dark fermentation followed by microbial fuel cells
BRNS	2009-2012	Design and Development of Microbial Fuel Cells

\* International Sponsored Project

### — Consultancy Projects

World Hydrogen Energy (WHE), USA	2002-2003	Pilot plant design of hydrogen generation system from sewage sludge
	2003-2004	Process design for a hydrogen production plant using the supernatant of the sludge treatment plant
IFB Agro Industries Ltd., Noorpur	2013	Calculation of alcohol loss in the Distillery Plant
Excise Commissioner, Govt. of West Bengal	2014	Study and Review of the Existing System of Measurement of Spirits in West Bengal

### — Books

Biohydrogen Production: Fundamentals and Technology Advances	Debabrata Das, Namita Khanna and Chitralkha Nag Dasgupta	2014	CRC Press Boca Raton, FL	ISBN 9781466517998	408 pages

1995	Soni SK, Venkateswara M, Das D	Studies on Glucoamylase Produced from <i>Aspergillus awamori</i> (NRRL-3112) and their effect on Saccharification of Potato Starch	<i>Indian Journal of Experimental Biology</i>	33: 957-961
1994	Das D, Sikdar K, Chatterjee AK	Potential of <i>Azolla pinnata</i> as Biogas Generator and as a Fish-feed	<i>Indian J. Environ. HLTH</i>	36: 186-191
1993	Das D, Gaidhani NR, Murari K, Sen Gupta P	Ethanol Production by Whole Cell Immobilization using Lignocellulosic Materials as Solid Matrix	<i>Journal of Fermentation and Bioengineering</i>	75: 132-7
1987	R. Guha, D. Das, P.D. Grover and B.K. Guha	Germicidal Activity of Tar-distillate obtained from Pyrolysis of Rice-Husk	<i>Agricultural Wastes</i>	21: 93-100
1982	Ghosh TK, Das D	Maximization of Energy Recovery in Biomethanation Processes: Part-II Use of Mixed Residue in Batch System	<i>Process Biochemistry</i>	17: 39-42

### — Publication of Articles

2020	Debabrata Das	Commercialization of biohydrogen production process from organic wastes	<i>Akshay Urja</i>	12-13, 29-33
2016	G. Balachandar, Pallavi Sinha and Debabrata Das	IIT-Kharagpur leads the way for biofuels	<i>Akshay Urja</i>	10: 28-31
2015	S Roy and D. Das	Organic Wastes in India's Energy Supply,	<i>Future Energy</i>	28-35
2014	D. Das	Biomass to biohydrogen: a successful path,	<i>Akshay Urja,</i>	3: 28-31
2010	D. Das	Production Technology, the present Senario of Biohydrogen	<i>Akshay Urja</i>	3(5)
	D. Das	Microbial Fuel Cell- A Promising Green Energy	<i>Akshay Urja</i>	3(6)

			Production Technology from Wastewater		
2003	Kaushik Nath and Debabrata Das		Energy and economic analysis of a fermentative hydrogen production process	<i>Bioenergy News</i>	7: 15-19
1997	Debabrata Das		Energy recovery from nonconventional energy sources at Biotechnology Centre, IIT Kharagpur	<i>Bioenergy News</i>	2: 8

### — Publication of Book Chapters

2021	Chandan Mahata and Debabrata Das	Current Status and Prospects of Producing Biohydrogen	Microbial Biotechnology for Renewable and Sustainable Energy	Springer Nature (ISBN: 978-981-16-3851-0)	<i>In press</i>
2020	Harshita Singh and Debabrata Das	Biohydrogen from microalgae	Handbook of microalgae-based processes and products (Eduardo Jacob-Lopes, Mariana Manzonei Maroneze, Maria Isabel Queiroz, Leila Queiroz Zepka)	Academic Press (ISBN: 9780128185360)	391-418
2019	Srijoni Banerjee and Debabrata Das	Biodiesel Production from Microalgal Biomass Challenges and Perspectives	Handbook of Algal Technologies and Phytochemicals, Vol 2 (Eds. Gokare R. and Ambati R.)	CRC Press, USA (ISBN: 13: 978-0367178192)	51-62
	Vaishali Singh, Debabrata Das	Potential of Hydrogen Production From Biomass	Science and Engineering of Hydrogen-Based Energy Technologies (Ed. Paulo E. V. de Miranda),	Elsevier and Academic Press ISBN: 9780128142516	132-164
2018	Ramya Veerubhotla, Jhansi L. Varanasi, Debabrata Das	Biofilm Formation Within Microbial Fuel Cells	Progress and Recent Trends in Microbial Fuel Cells (Eds. K. Dutta and P.P. Kundu)	Elsevier ISBN 9780444640178	231-242
	Jhansi L. Varanasi, Ramya Veerubhotla, Soumya, Debabrata Das	Biohydrogen production using Microbial Electrolytic Cell: Recent advances and future prospects	Bioelectrochemical System for Biofuels and Chemicals (Eds. Ashok Pandeys. Venkata Mohan)	Elsevier ISBN: 9780444640529	843-870
	Harshita Singh and Debabrata Das,	Biofuels from Microalgae: Biohydrogen	Energy from Microalgae	Springer (ISBN 9783319690926)	201-228

	Balachandar G, Khanna N, and Das D	Dark-Fermentative Biohydrogen Production	Biohydrogen (Editors: A pandey, S Venkat Mohan, Jo-shu chang, P C. Hallenbeck, C Larroche)	Elsevier ISBN: 9780444642035	79-122
2017	Ramya Veerubhotla and Debabrata Das	Application of MFC as BOD biosensor	"Microbial Fuel Cell: a bioelectrochemical system that converts waste to Watts" (Ed Debabrata Das)	Springer ISBN 9783319667928	269-284
	Soumya Pandit, Shruti Sarode and Debabrata Das	Fundamentals of microbial desalination cell	-do-	-do-	353-372
	Jhansi L. Varanasi and Debabrata Das	Bioremediation and power generation from organic wastes using microbial fuel cell	-do-	-do-	285-306
	Jhansi L. Varanasi, Ramya Veerubhotla and Debabrata Das	Diagnostic tools for the assessment of MFC	-do-	-do-	249-268
	Jhansi L. Varanasi and Debabrata Das	Characteristics of microbes involved in microbial fuel cell	-do-	-do-	43-62
	Soumya Pandit and Debabrata Das	Principles of microbial fuel cell for the power generation	-do-	-do-	21-42
2016	D. Das	Introduction	-do-	-do-	1-20
	Debabrata Das and Shantonu Roy	Biohythane process for the maximization of the gaseous energy recovery	Annals of the Indian National Academy of Engineering XIII	INAE	140-149
	Shantonu Roy, Debabrata Das	Nano Biotechnology Augmenting Biological Gaseous Energy Recovery	Nanotechnology for Energy Sustainability (Editors: Baldev Raj, Yashwant Mahajan, and Van de voorde Marcel)	John Wiley-VCH (ISBN: 9783527340149)	249-266
	Shantonu Roy, Debabrata Das	Biotechnological platform for biohydrogen production: present status and future challenges	Sustainable Biofuels Development: An Inevitable Option to Powering India (Editors: Anuj K. Chandel and Rajeev K. Sukumaran)	Springer ISBN 9783319502199	357-390
2015	Shantonu Roy,	Ecobiotechnological Approaches:	Microbial Factories: Biodiversity,	Springer ISBN	29-46

	Debabrata Das	Enrichment Strategy for Improvement of H <sub>2</sub> Production	Biofuels, Biopolymers, Bioactive molecules and Waste treatment (Editor: V.C. Kalia)	9788132225973, ISBN 9788132225980 (eBook)	
	Debabrata Das	Introduction	Algal Biorefinery: an Integrated Approach, (Editor: Debabrata Das)	Springer ISBN 9783319228129	
	Shantonu Roy, Debabrata Das	Liquid Fuels Production from Algal Biomass	-do-	-do-	277-296
	Shantonu Roy, Debabrata Das	Gaseous Fuels Production from Algal Biomass	-do-	-do-	297-320
	Soumya Pandit, Debabrata Das	Role of microalgae in Microbial Fuel Cell	-do-	-do-	375-400
	Supratim Ghosh, Debabrata Das	Improvement of Harvesting Technology for Algal Biomass Production	-do-	-do-	169-194
	G. Balachandar, S. Roy, and D. Das	Hydrogen from Biomass - Production Processes via Fermentation	Hydrogen Science and Engineering (Editors: D. Stolten and B. Emonts)	Wiley-VCH Verlag GmbH & Co., Berlin, Germany ISBN: 9783527332380	417-437
					303-336
2014	Kanhaiya Kumar and Debabrata Das	Carbon Dioxide Sequestration by Biological Processes	Transformation and Utilization of Carbon Dioxide (Editor: Bhanu Chandra M. Bhanage, Masahiko Arai)	Springer ISBN 9783642449871	
2013	B. K. Nayak, S. Pandit, D. Das	Biohydrogen	Air Pollution Prevention and Control - Bioreactors and Bioenergy	John Wiley & Sons Ltd. ISBN: 9781119943310	345-382
	K. Kumar and D. Das,	CO <sub>2</sub> Sequestration and Hydrogen Production Using Cyanobacteria and Green Algae	Natural and Photosynthesis: Solar power as an energy source (Editor: Reza Razeghifard)	Wiley-Blackwell Publication ISBN: 9781118659755	173-216
	G. Balachandar, N. Khanna and D. Das	Biohydrogen production from organic wastes by dark fermentation	Biohydrogen (Editors: A pandey Jo-shu chang P C. Hallenbeck C Larroche)	Elsevier ISBN: 9780444595553	103-144
2012	K. Mohanty and D. Das	Kinetics of Biohydrogen Production by Dark Fermentation Processes	State of the Art and Progress in Production of Biohydrogen (Editors: Nuri Azbar and David Levin)	Bentham Science Publishers, USA ISBN: 9781608052240	127-136

	C. Nag Dasgupta and D. Das	Fundamentals of Biohydrogen production processes	Carbon Neutral Fuels Energy Carriers (Editors: T.N. Veziroglu and N. Muradov)	Taylor and Francis Pub. (CRC Press), Boca Raton, FL, ISBN: 9781439818572	491-546
2010	S.M. Kotay and D. Das	Biotechnology in Waste Treatment and Pollution Abatement	Environmental Security: Human and Animal Health (Ed. S.R. Garg)	IBDC Publisher, Lucknow, India ISBN: 9788181891716	415-432
2005	K. Nath and D. Das,	Photoproduction of hydrogen using phototrophic purple non-sulfur (PNS) bacteria in column bioreactor	Photo/Electrochemistry & Photobiology in Environment, Energy and Fuel	Research Signpost Pub., Trivandrom, India ISBN: 8130800004	43-59
	J. Mishra, B. Mallick, T Dutta and D. Das	Separation of hydrogenase from the intact cells of <i>Enterobacter cloacae</i> IIT-BT 08	Proceedings of National Seminar and Workshop on Advanced Separations Process;	Allied Publisher, Kolkata ISBN: 8177646664	135-142
2004	K. Nath, N. Roy, L. Mukherjee and D. Das,	Biohydrogenation using <i>Enterobacter cloacae</i> DM11 and a Comparative Energy Analysis with Biomethanation	ENERGY & ENVIRONMENT: A World of Challenges and Opportunities	Science Press New York Ltd	273-280
	S. Saha, N. Roy, K. Nath and D Das,	Biohydrogenation of industrial effluents by <i>Enterobacter cloacae</i> DM11	Hypothesis V (Editors: M. Marini, G. Spazzafumo)	Servizi Grafici Editoriali ISBN: 8886281900	361-368
2003	N. Kumar, N. Roy, J. Mishra, L. Mukherjee and D. Das	Scanning electron microscopy of immobilized whole cells: A case studies on the hydrogen production using immobilized <i>Enterobacter cloacae</i> IIT-BT 08	Science, technology and education of microscopy: An overview	Formatex (ed. A. Mendez-Vilas), Spain ISBN: 8460766985	352-362
1992	C. Renuka and D. Das	High rate biodegradation of municipal solid wastes by advanced solid-state fermentation process	Downstream Processing in Biotechnology (Ed. R.N. Mukherjee)	Tata McGraw-Hill Pub. Co. Ltd. New Delhi ISBN: 0074622552	351-357

## — Book Reviewed
